Summary

Computer Science and Engineering graduate skilled in both frontend and backend development, with expertise in the MERN stack — MongoDB, Express.js, React, and Node.js. Experienced in building responsive, user-centric applications with a strong focus on delivering solutions aligned with user needs and project goals.

Education

Aalim Muhammed Salegh College of Engineering, Affiliated with Anna University, Chennai 2021 – 2025
Bachelor of Engineering in Computer Science and Engineering (B.E.CSE) **GPA: 8.13/10**

Experience

VoxyHealth September 2025 – Present
SDE Intern

- Actively contributed to the live production environment by implementing new features and resolving existing issues to enhance the platform's performance and reliability.
- Involved in bug fixing and maintenance tasks, addressing and resolving critical issues to maintain seamless operations.
- Key technical skills: React, Node.js, Python, JavaScript, Express.js, TypeScript, MongoDB, RabbitMQ, Manual Testing, and Unit Testing.

Projects

Project Management Platform *Angular, TailwindCSS, TypeScript*

- Developed a responsive project management application using Angular and TailwindCSS for cross-device compatibility.
- Implemented drag-and-drop task boards with CRUD functionality and user assignment features.
- Integrated real-time chat and document management with upload, edit, and delete capabilities.
- Implemented an interactive friend management system, including search, request sending, and status tracking.
- Deployed the frontend on Firebase and the backend on Render, ensuring seamless API integration.

House Rental Management System *MongoDB, Express.js, ReactJS, Node.js*

- Built a house rental platform with property listing and user account management features.
- Implemented secure user authentication using JWT for signup and login processes.
- Developed RESTful APIs with Node.js and Express for efficient data handling.
- Managed property and user data storage and retrieval using MongoDB.

Video Streaming Platform *Spring Boot, Microservices, Java*

- Built a scalable video streaming platform with microservices and Spring Boot.
- Enabled inter-service communication via RestTemplate and load balancing using service URLs.
- Integrated Zipkin for request tracing and performance monitoring.
- Improved availability using service discovery and centralized configuration.

Chat Application *ReactJS, Node.js, MongoDB, Socket.IO*

- Created a real-time chat application with text and image messaging using ReactJS.
- Developed secure backend with Node.js and JWT for user authentication and messaging.
- Integrated MongoDB for user data and chat history storage.
- Enabled instant messaging and read receipts using Socket.IO for real-time updates.

Skills

Frontend: HTML, CSS, Tailwind CSS, GSAP, JavaScript, TypeScript, Sass, React, Angular, Redux Toolkit, Zustand

Backend: Java, Spring Boot, Node.js, Express.js, PostgreSQL, MongoDB, Kafka, Microservices

DevOps & Tools: Git, npm, Maven, Webpack, Module Federation, Jenkins, Docker, Kubernetes, AWS, Postman, Linux

Certifications

DevOps: CI/CD with Jenkins, Docker, Kubernetes & AWS (Udemy) [Certificate] April 2025
